About us

Founded in 2003 in Egypt, Atec Egypt is a company specialized in Medium Voltage and Low voltage products. Our scope is to cover different types of projects (Industrial, Residential, Administrative buildings,...etc.) .

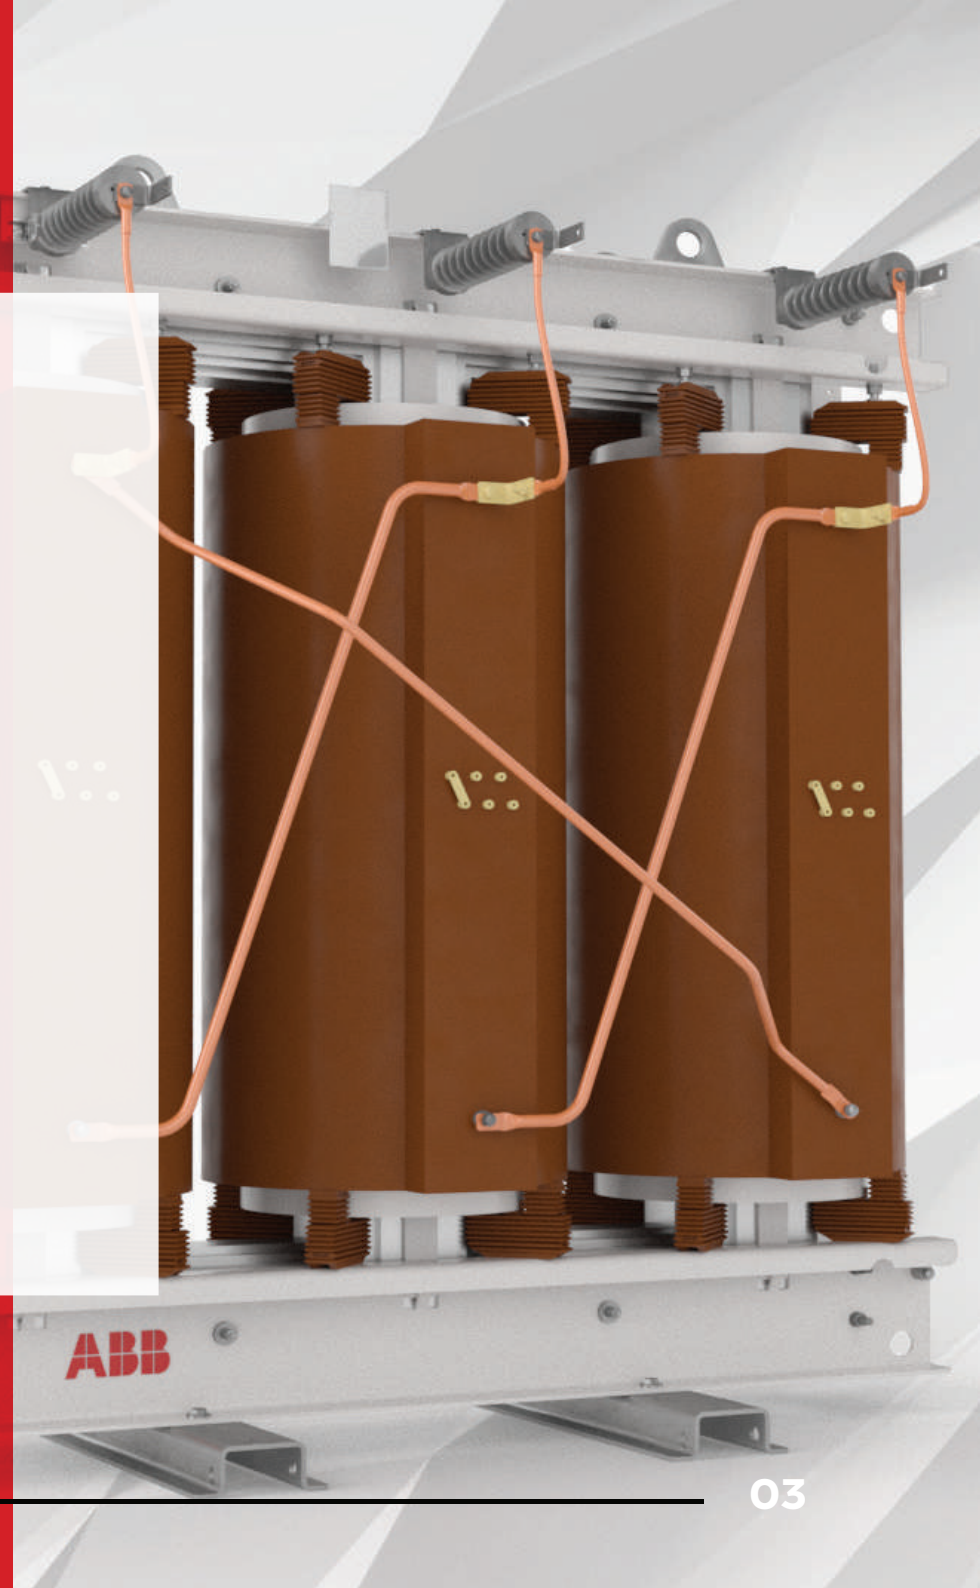

Being a representative of ABB Company which got the best products & stock availability in Egypt, our innovative products, services, solutions are designed and built to meet the international quality standards and specifications.

Our customers, partners and employees can rely on us for meeting their requirements in a timely manner and ensuring their comfort and peace of mind .

" Delivering fast and efficient service is one of our top priorities. We offer 24/7 service, provided by an expert team of engineers and technicians who take pride in ensuring that our customers receive the service and back-up support that they expect. "

DRY TRANSFORMERS

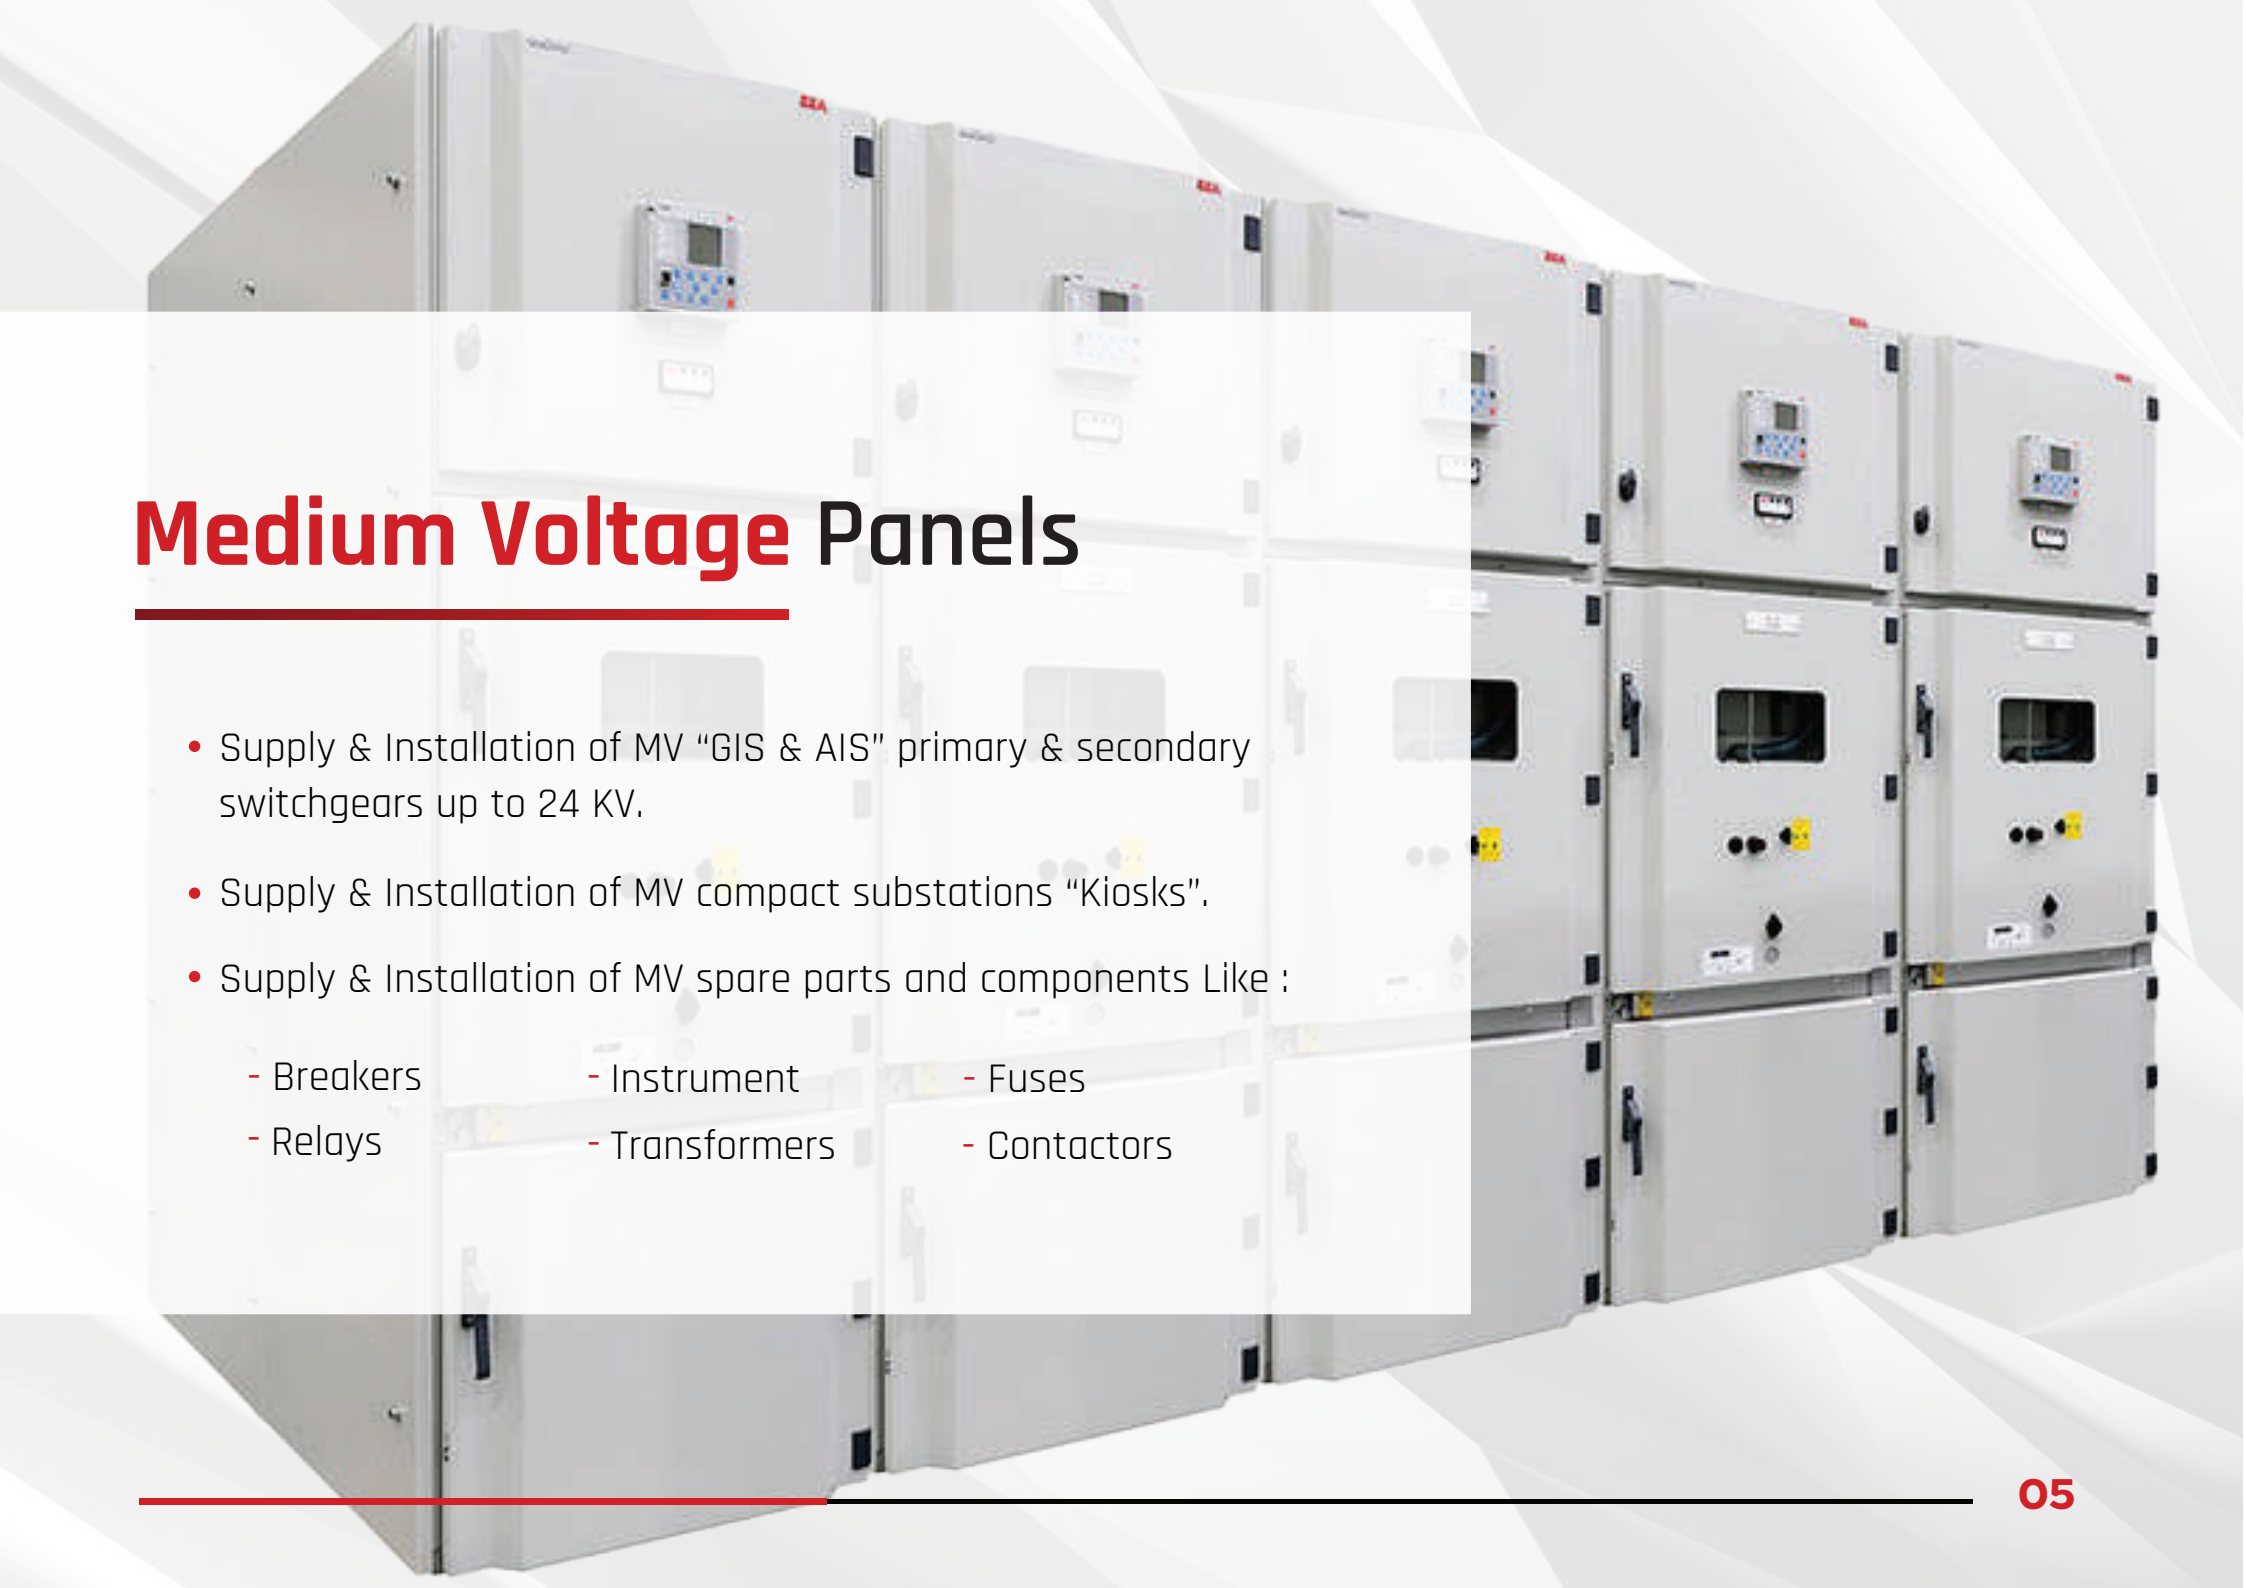

- Dry type Transformers with Ratings :
 - Up to 5000 KVA, Voltage from 3.3 KV
Up to 36 KV on both sides.
- Supply & Installation of Transformers
Spare Parts & components.

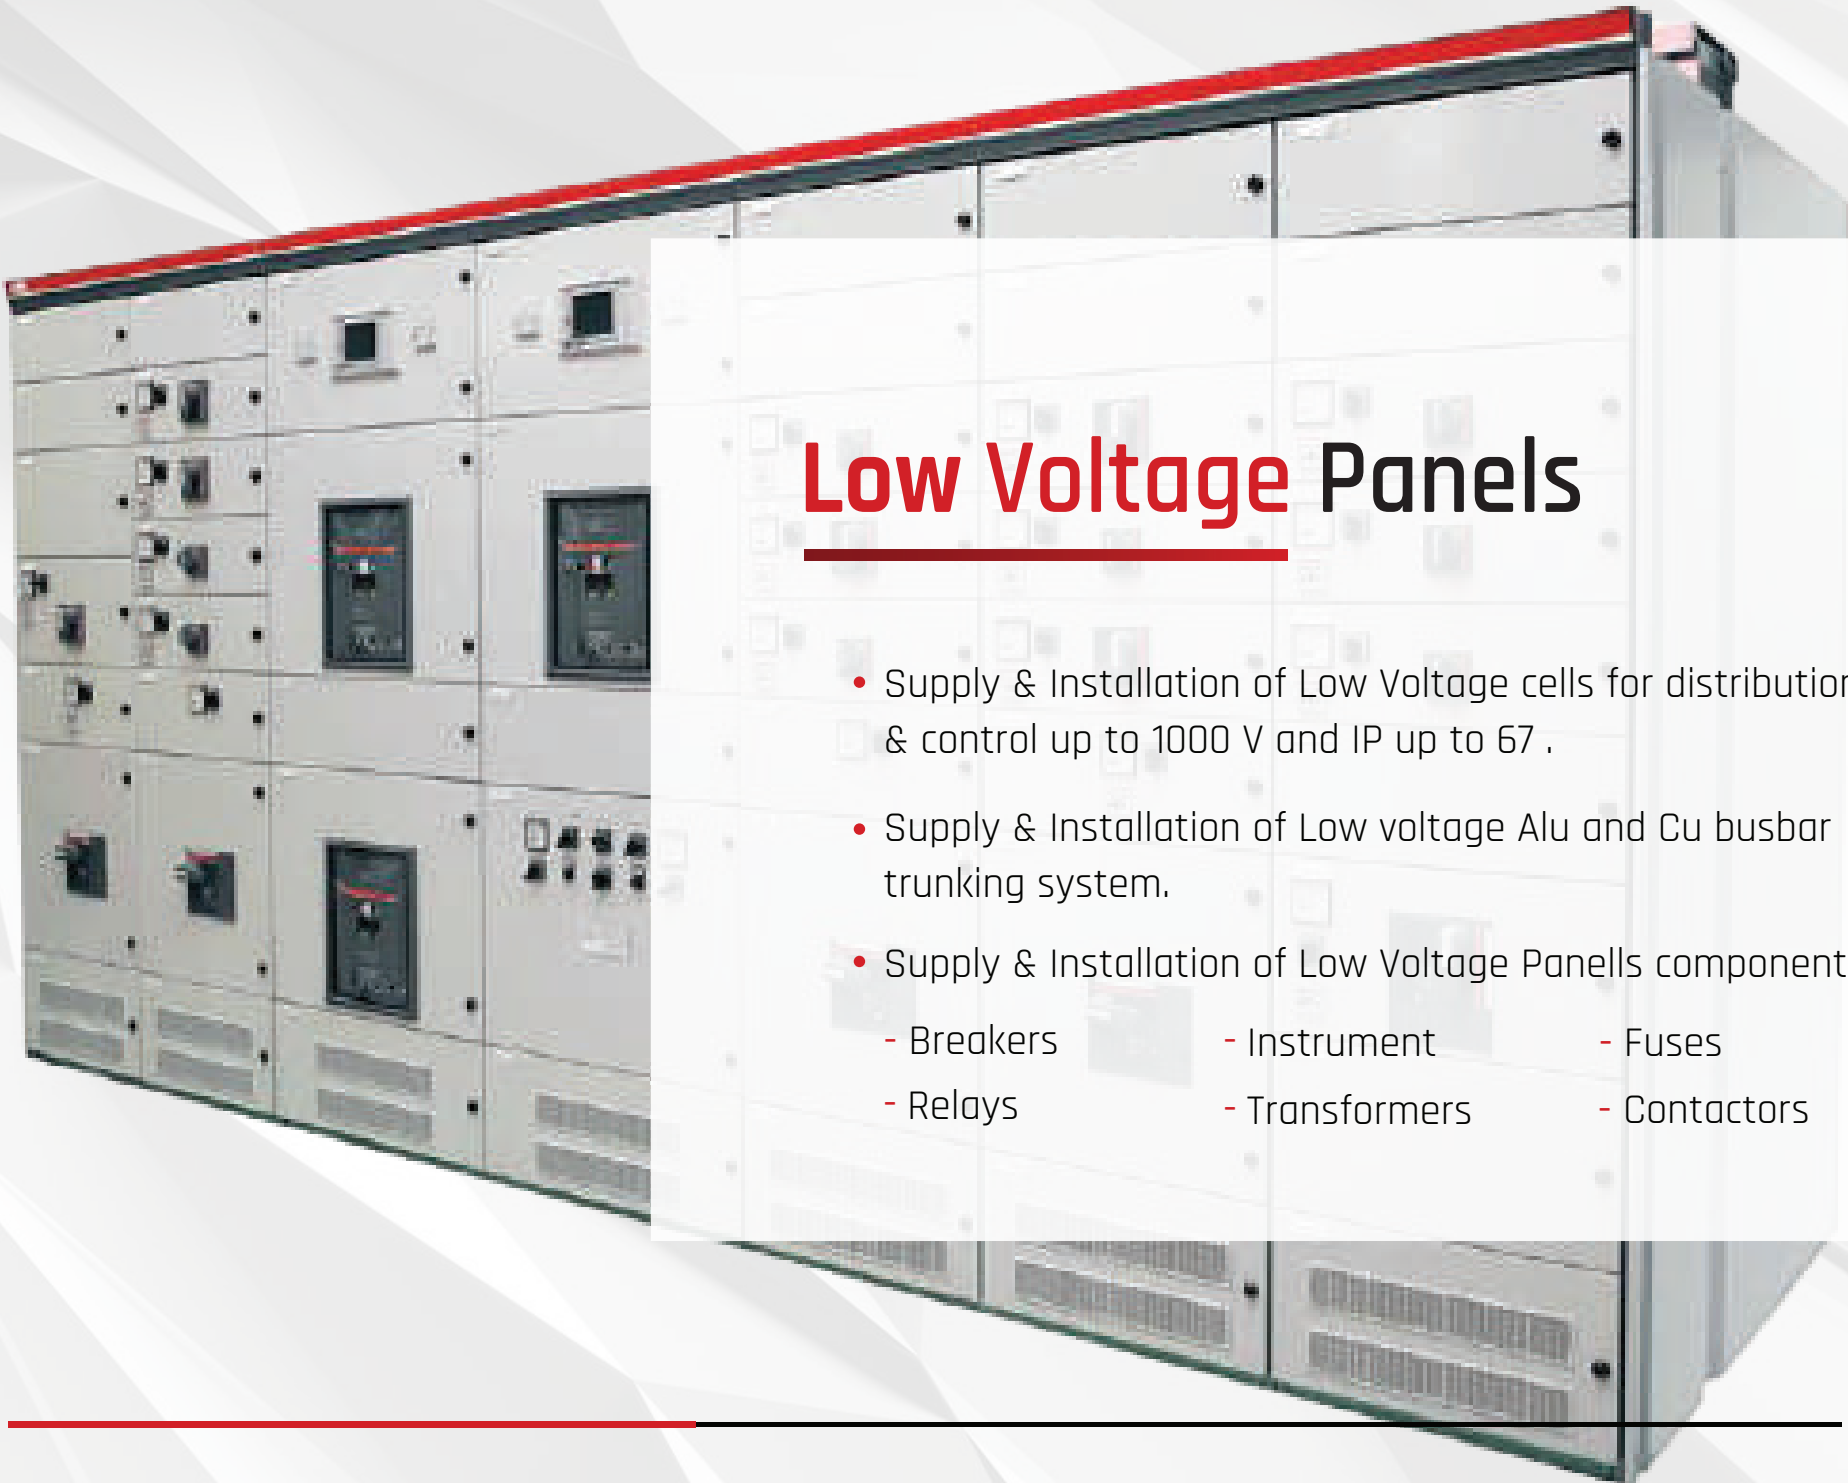

OIL TRANSFORMERS

- Oil Type Transformers with Ratings :
 - From 50 KVA Up to 5000 KVA. Voltage from 3.3 KV Up to 36 KV on both sides.
- Supply & Installation of Transformers
Spare Parts & components.

Medium Voltage Panels

- Supply & Installation of MV “GIS & AIS” primary & secondary switchgears up to 24 KV.
- Supply & Installation of MV compact substations “Kiosks”.
- Supply & Installation of MV spare parts and components Like :
 - Breakers
 - Relays
 - Instrument
 - Transformers
 - Fuses
 - Contactors

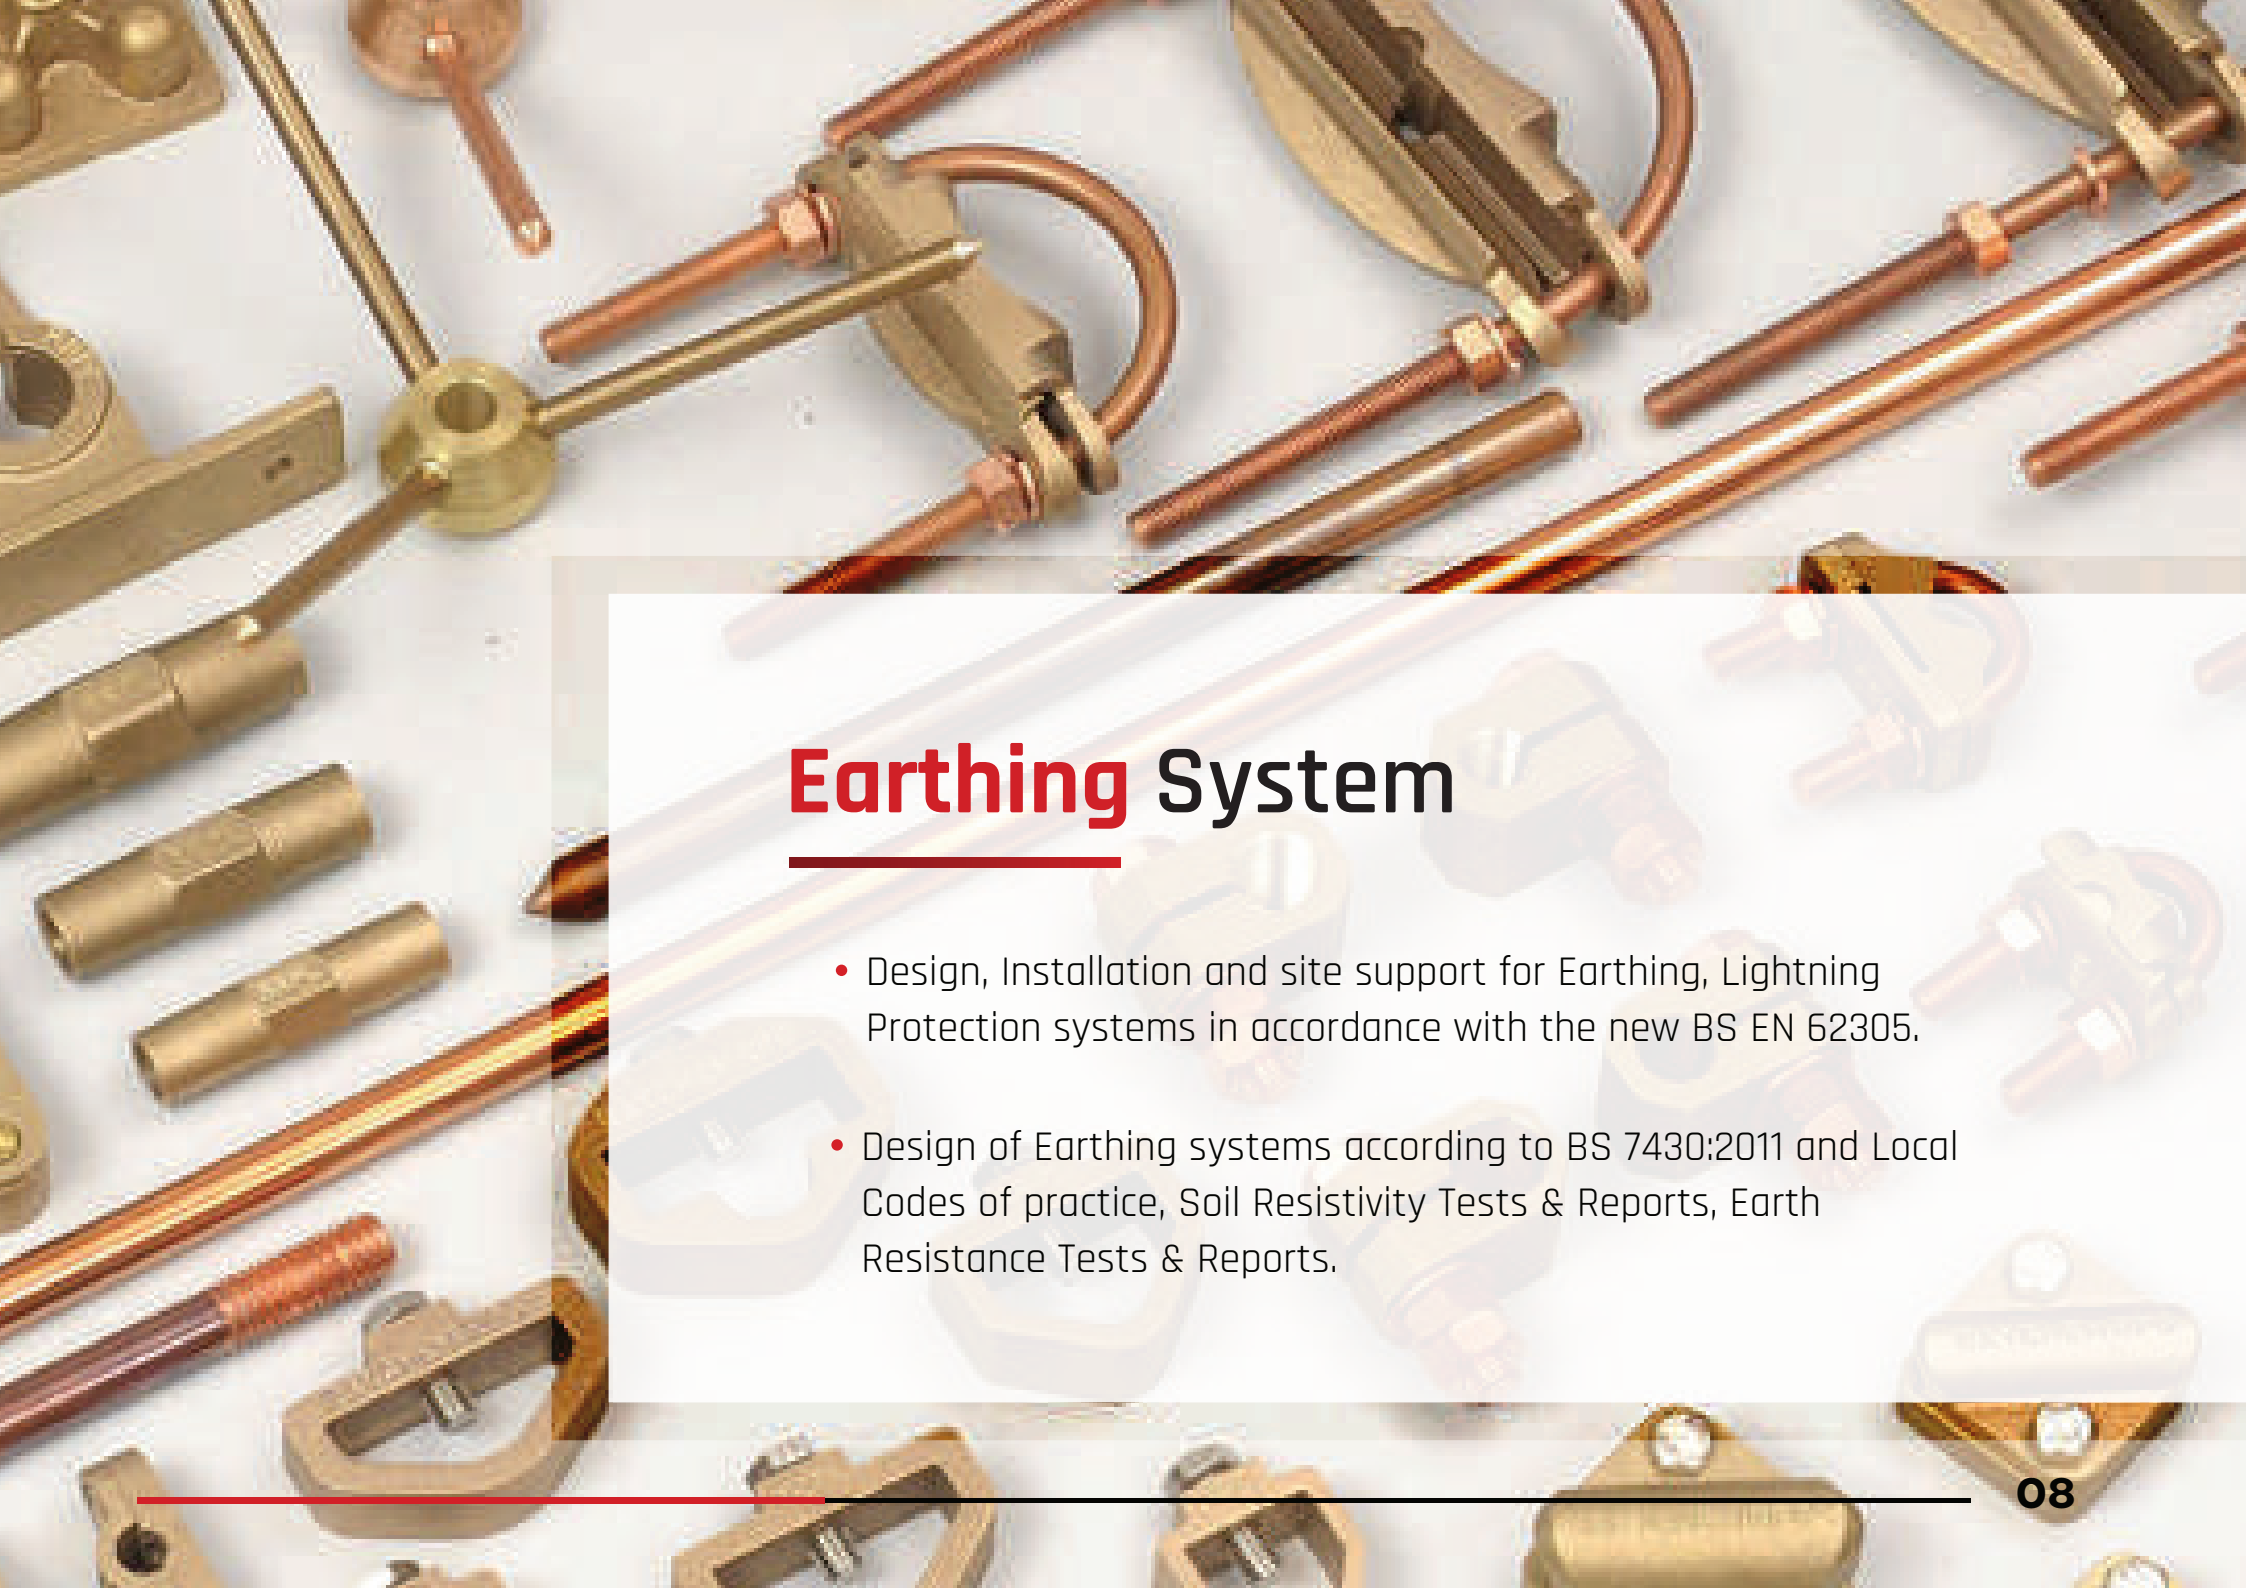

Low Voltage Panels

- Supply & Installation of Low Voltage cells for distribution & control up to 1000 V and IP up to 67 .
- Supply & Installation of Low voltage Alu and Cu busbar trunking system.
- Supply & Installation of Low Voltage Panels components like :
 - Breakers
 - Relays
 - Instrument
 - Transformers
 - Fuses
 - Contactors

Cables & Excavation Work

- Supply & Installation of LV & MV cables and cable accessories up to 24 KV.
- Supply & Installation of cable tray and ladders.
- Excavation, Backfilling & Restoration work.

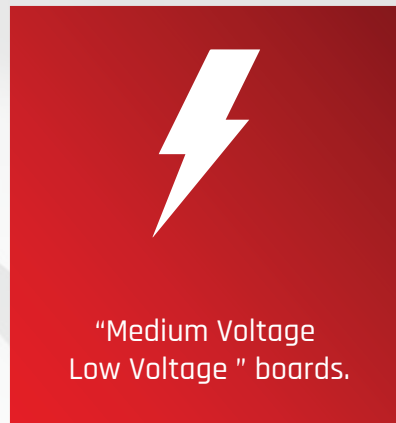

Earthing System

- Design, Installation and site support for Earthing, Lightning Protection systems in accordance with the new BS EN 62305.
- Design of Earthing systems according to BS 7430:2011 and Local Codes of practice, Soil Resistivity Tests & Reports, Earth Resistance Tests & Reports.

Maintenance

- Perform the protective maintenance required for :

- **Preventive maintenance:** routine planned maintenance for panels (MV & LV), breakers (MV & LV) and transformers.

- Fixing any defaults in board.

Company Structure

Our Valued Clients

ref	Logo	Client	Description
1		Egyptian German Automotive Industry (EGA)	Consultant : Dr.Mohamed Abd ElRahman Works : MV & LV Works Location / Period : 6th of October / 2012
2		Lazourde Egypt for Gold	Consultant : Owner Works : LV Works Location / Period : El Obour / 2012
3		Nissan Egypt	Consultant : Owner Works : MV & LV Works Location / Period : 6th of October / 2012
4		Al Hayat TV	Consultant : Owner Works : MV & LV Works Location / Period : 6th of October / 2011
5		Heinz	Consultant : Owner Works : MV Works Location / Period : 6th of October / 2013
6		Winter Palace Hotel	Consultant : Shaker Group Works : MV & LV Works Location / Period : Luxor / 2012
7		FRANKE	Consultant : Owner Works : MV Works Location / Period : 6th of October / 2012
8		Misr Foods	Consultant : Owner Works : MV & LV Works Location / Period : 6th of October / 2013
9		Oriental Weavers	Consultant : Owner Works : MV & LV Works Location / Period : 10th of Ramadan / 2012
